DETAILED ACTION

Election/Restrictions

1. Claims 1-20 are generic to a plurality of disclosed patentably distinct species comprising Species A, Figures 1-7; Species B, Figures 8-12; Species C, Figures 13 and 14; Species D, Figure 15; Species E, Figure 16; Species F, Figure 17; Species G, Figures 18 and 19; Species H, Figure 20; Species I, Figure 21; Species J, Figure 23; Species K, Figure 24; Species L, Figure 25; Species M, Figure 26; Species N, Figures 27-42. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to J. Gorski on 1/31/06 to request an oral election to the above restriction requirement, but did not result in an election being made.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 1744

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
